See the difference you made last year

2025 ANNUAL REPORT

2025 was a year of transformation.

In January, we officially became Three Birds Alliance, a name that reflects hope and healing while remaining rooted in our vision of a future free from domestic violence.

The year also brought significant challenges, including federal funding cuts that forced us to pause our in-house

counseling program. It forced us to seek out creative funding strategies, and despite these obstacles, our clients continued to make remarkable progress.

By tracking outcomes from the time a survivor entered shelter through six months after they left, we saw meaningful gains in self-sufficiency—proof that the support they received had significant impact on their lives.

We are deeply grateful for all we accomplished together. Thank you for being part of that impact.

To see the difference your support made, we invite you to view our 2025 Annual Report using the link below.

Arapahoe County – A Partner We Can Always Count On

The Arapahoe County Aid to Agencies Program provides financial support to nonprofit organizations delivering essential services to Arapahoe County residents.

Because we are the sole agency providing domestic violence services in Arapahoe County addressing a need where community demand is high, we are proud to be considered as one of the Safety Net Providers – nonprofits that deliver essential services to vulnerable or underserved populations.

Support from Aid to Agencies ensures survivors have access to critical resources like emergency shelter, basic needs support and ongoing case management and advocacy. It also ensures sustainability of our organization by supporting the essential infrastructure that allows our shelters the flexibility to respond when survivors and their children must flee abuse—often with little warning and nowhere else to go. Most importantly, their support provides a lifeline to victims on their path from healing to self-sufficiency and independence.

We are grateful for the support we have received through the Aid to Agencies program over many years and for our long-standing relationship with Arapahoe County.
